

# Nails

# HYDRATING CUTICLE REMOVER

## Moisturising nail cuticle remover

This gel-like, green nail cuticle remover gets rid of excess nail cuticle by gently softening with fine exfoliants that mean the cuticle can be removed effortlessly while intensively conditioning the skin around the nail bed. A moisturising complex of algae extract,

glycerin and silica keeps the nail area very soft, reduces moisture loss and prevents the nails from drying out. Regular use of *Hydrating Cuticle Remover* reduces the hardness of the nail bed to minimise brittleness and tearing of the nail cuticle.

### Ingredients

- Glycerin
- Panthenol
- Algae extract
- Silica

### Application

Apply a few drops of *Hydrating Cuticle Remover* with the brush onto the nails and nail cuticle 1–2 times every week, massage it in briefly and allow it to act for a few minutes, then gently push the nail cuticle back with a wooden stick or a “rubber cuticle stick”. Leftover nail cuticle can be removed with cuticle scissors if necessary; afterwards the hands should be washed or the nails should be rinsed in a hand bath. Never damage the composition of the nails or they will not grow evenly.

PRODUCT TYPE  
Nail cuticle remover

RETAIL PRODUCT  
Bottle with screw top brush, 8 ml

TESTER

- *Prevents brittleness and tearing of the nail cuticle.*
- *The nail bed is clean and conditioned.*
- *Ideally suitable for both women and men for manicure.*

Removes and  
conditions  
the nail cuticle.

# NAIL & CUTICLE CARE

## Strengthening and intensively conditioning nail oil

Beautiful fingernails and toenails surrounded by smooth, well-groomed cuticles embody healthy vitality and are an attractive feature. What's more, they are now easy to achieve with the ideal care product. We want our nails to be both strong and flexible, highly resistant and have a healthy shine. However, a lack of vitamins and minerals or external stress factors can cause them to dry out, become brittle and split. *Nail & Cuticle Care* combats brittle

nails and dry cuticles and noticeably stabilises them. An extract from pistachio tree resin strengthens the nails, makes them thicker and more resistant and prevents premature breakage. A lactic acid ester improves moisture storage, conditions the cuticles with essential fatty acids, keeps them soft and protects them from tearing. The result: beautiful nails and cuticles!

PRODUCT TYPE  
Nail oil

RETAIL PRODUCT  
Bottle with screw top brush, 8 ml

TESTER  
Bottle with screw top brush, 8 ml

## Ingredients

- Lactic acid ester
- Pistachio resin extract
- Plant neutral oil

## Application

Apply the oil to the nails once a day and massage it into the nails and cuticles. For maximum effect, apply to unpainted nails.

Before starting your care routine, use acetone-free *Nail Enamel Remover* to remove nail polish.

Manicure can be used to exfoliate and condition the hands and nails.

After applying the nail oil, use Nutric Nail Hardener for additional strength.

Before re-applying nail polish, remove excess oil residue with acetone-free *Nail Enamel Remover*.

In the case of nail growth disorders, we recommend also taking *Bio Fanelan Synergie* capsules to balance out a lack of vital substances from within.

A hand or foot bath with *Spa Le Bain* before applying the oil will make the nails more receptive to it. After the bath, use cuticle pushers to gently push back the cuticles and in turn increase the nail area.

Treat your toenails with *Nail & Cuticle Care* every day after showering / bathing too.

The daily care ritual for the nails: distribute the nail oil on the fingernails and rub the nails together so that the oil is quickly distributed into the cuticles.

## Consultation

- *Vegan Nail & Cuticle Care leaves the nails looking well-groomed and beautiful.*
- *You will notice a significant improvement in the stability of your nails and cuticles.*
- *Your nails will no longer break prematurely.*
- *They are stronger and more resistant.*
- *The oil is rapidly absorbed, perfectly conditions your cuticles with essential fatty acids and protects them from tearing.*

Healthy vitality  
for nail and cuticle.

## BRILLIANT NAIL FINISH

## Nail enamel rapid drier

*Brilliant Nail Finish* is a clear rapid drying oil that drastically reduces the drying time of the nail enamel. It contains silicones that slowly harden on application, thereby hardening the nail enamel. This makes the enamel stable fast and the surface feels instantly

dry to the touch while fixing the colour enamel and preventing chipping. The conditioning paraffin oil spreads quickly and evenly over the nail increasing shine and accentuating the colour pigments adding protection and radiance.

## Ingredients

- Volatile silicones
- Paraffin oil
- Isoparaffin

## Application

Use after applying nail enamel or top coat. Allow the enamel to dry briefly and lightly apply *Brilliant Nail Finish* with a brush.

PRODUCT TYPE  
Nail enamel rapid drier

RETAIL PRODUCT  
Bottle with screw top brush, 8 ml

TESTER  
Bottle with screw top brush, 8 ml

## Consultation

- *Drying time is drastically reduced so that the nail surface is dry to the touch immediately after applying Brilliant Nail Finish.*
- *Extends the durability of the nail enamel and prevents the colour enamel from chipping.*
- *Accentuates the colour pigments of the nail enamel.*
- *Increases shine.*

Rapid drying  
and brilliance.

## Protective, sealing top coat

The transparent, fast-drying top coat seals the coloured polish and rapidly gives the nails a glossy, protective and long-lasting finish. Thanks to its liquid

texture, *Top Coat* is easy to apply and fast-drying over a coloured polish.

## Ingredients

- Ethyl Acetate
- Butyl Acetate
- Acetyl Tributyl Citrate

## Application

Before use, roll between your palms. After application of the desired nail colour shade, apply a coat of *Top Coat* to seal the nail polish and protect it from wear and tear. *Top Coat* can of course also be used without coloured polish.

*Tip:* Another application over the coloured polish extends the shine and durability.

## BI-PHASE REMOVER

## 2-phase make-up remover lotion for waterproof eye make-up

This 2-phase make-up remover is a gentle conditioning oil / water formulation that thoroughly removes heavy and waterproof make-up without irritating the sensitive eye area. The top layer consists of a colourless plant-based neutral oil and a skin calming canola oil, which create the thorough active cleansing agents. The bottom layer contains a mild cleansing complex based on sugar and amino acids which

further enhance the cleansing capabilities of the oils. It also contains a premium hydro-complex, which moisturises and leaves the skin feeling soft. The moisturising effect on the skin is long-lasting. The pH-value of the lotion is identical to tear fluid and perfume-free, which makes the lotion particularly suitable for sensitive skin.

PRODUCT TYPE  
2-phase-make-up remover lotion

RETAIL PRODUCT  
Bottle, 100 ml

TESTER  
Bottle, 100 ml

## Ingredients

- Canola oil
- Vegetable neutral oil
- Physiological electrolyte solution based on sodium chloride
- pH stabiliser based on phosphates

## Application

Shake the bottle well before use so that the two layers mix. Soak a cotton wool pad with the *Bi-Phase Remover* and sweep gently over the eye area to remove waterproof eye make-up. If necessary, leave the lotion to work for a couple of seconds to loosen stubborn make-up.

## Consultation

- *Removes waterproof eye make-up gently and thoroughly.*
- *Very mild and non-irritating.*
- *Particularly suitable for the skin around the eye area.*
- *Conditions and moisturises the skin with results that last.*
- *Dermatologically and ophtalmologically tested.*
- *Comes in a practical plastic bottle — ideal for women on the go.*

Removes gently  
waterproof eye make-up.

## EYE MAKE-UP REMOVER

## Gentle eye make-up remover lotion

The unusually mild and conditioning lotion gently, rapidly and thoroughly removes even dramatic eye make-up without drying out the sensitive eye area. The cleansing complex consists exclusively of high-quality substances that are rated as non-irritating and have been specially tested for use on the

eyes. The pH level 5 is compatible with the skin, which makes make-up removal pleasant and non-irritating. The light, oil-free formulation cleanses the skin without leaving any residue, and is thus also highly suitable for correcting minor make-up mistakes. The skin feels pleasantly fresh and is lastingly hydrated.

PRODUCT TYPE  
Eye make-up remover lotion

RETAIL PRODUCT  
Bottle, 100 ml

TESTER

## Ingredients

*Cleansing complex that is kind to the mucous membranes with:*

- Sugar surfactant
- Sulfosuccinate

*Lactic acid-based moisturising active ingredient:*

- Sodium Lactate
- Sodium Gluconate

## Application

Moisten cotton pad with Eye Make-up Remover, and use to remove eye make-up.

## Consultation

- *Gentle, fast and thorough cleansing.*
- *Prevents dehydration of the skin around the eyes.*
- *The oil-free lotion leaves no residue on the skin.*
- *In a practical plastic bottle, so also ideal for travel.*

Gentle to the eyes.

# MAKE-UP REMOVER TOWELETTES

## Make-up removal wipes, cotton

These practical make-up removal wipes are ideal for removing make-up quickly, easily and gently from face, eyes and lips. The special formulation contains natural glycerin, vitamin E, vegetable oil and camomile extracts that provide intensive conditioning and moisture for the skin. The make-up removal wipes are alcohol-free, dermatologically and ophthalmologically

tested, making them perfect for sensitive skin. The compact size with 20 towelettes is handy, saves space and means perfectly clean skin can be achieved with just one use. Perfect for travelling, during a break or when in a rush — the new *Make-up Remover Towelettes* are always quick and easy to use.

Make-up removal wipes

RETAIL PRODUCT  
20 towelettes

TESTER  
20 towelettes

## Ingredients

- Vitamin E
- Camomile extract
- Glycerin
- Vegetable oil

## Application

These make-up removal wipes can be removed individually from the practical, resealable box. They are easy to unfold and provide enough surface area to cleanse the entire face. Rinsing the face with water afterwards is not necessary.

To make sure the make-up removal wipes do not dry out and the remaining towelettes remain fresh, please reseal the pack after each use.

*Tip:* These cleansing wipes are perfect for removing dirt and make-up from the skin just before going into a sauna or after a sports activity.

## Consultation

- *No alcohol.*
- *Ophthalmologically and dermatologically tested.*
- *Extra conditioning.*
- *Quick, easy and convenient to use.*
- *Perfect for travelling.*

Quick and  
convenient to use.

## Hand oil exfoliant with Himalayan salt

Soft hands and beautiful finger nails are a dream come true with *ManiCare*. This oil exfoliant with real Himalayan salt and high-quality, 100 % natural oils means perfectly conditioned hands in an instant. *ManiCare* is simple and quick to use and combines several of the steps of a good manicure in just one product:

*Exfoliate* — the Himalayan salt stimulates the circulation of the blood, freeing the skin of dead skin cells and providing soft even skin.

*Cuticle care* — the combination of natural oils and Himalayan salt softens the cuticle.

*Feel-good care* — the natural oils possess excellent conditioning powers like moisturising lipids, rich fatty acids and natural anti-oxidants. They revitalise and protect the skin, making it soft and supple with no sticky or greasy residue. Using a hand cream after exfoliating is unnecessary, as the skin has been provided with long-lasting moisture and the light peach fragrance leaves a fresh sensation. The *ManiCare* treatment can be repeated as often as necessary or desired.

PRODUCT TYPE  
 Oil exfoliant

RETAIL PRODUCT  
 Bottle, 100 ml

TESTER  
 Bottle, 100 ml

## Ingredients

- Sunflower oil
- Soy oil
- Jojoba oil
- Avocado oil
- Himalayan salt

## Application

Shake the bottle vigorously until the salt has mixed thoroughly with the oil.

Put a little of the product on clean, dry hands and massage in for 1–2 minutes with a washing motion. Do not forget the area between the fingers and around the fingernails to soften the skin.

Finally rinse hands briefly under lukewarm water and gently pat dry with a soft hand towel.

## Consultation

- *Fast conditioning for perfect hands.*
- *Exfoliant and cuticle conditioner in one.*
- *Frees the skin of dead cells without drying it out.*
- *Protects the skin and makes it velvety soft.*
- *Pleasant peach fragrance with activating and refreshing action.*
- *Comes in a practical plastic bottle — ideal for travelling.*

Perfectly conditioned  
 hands in an instant.

# NAIL ENAMEL REMOVER

## Acetone-free nail enamel remover with avocado oil

This acetone-free nail enamel remover cleans nails quickly, gently and thoroughly without irritating the cuticles. Avocado oil provides intensive moisture and prevents the nails and cuticles from drying out.

Panthenol soothes the nail after solvent application and provides long-lasting conditioning. The gentle formula is finished off with a pleasant flowery scent.

### Ingredients

- Ethyl acetate
- Butyl acetate
- Panthenol
- Avocado oil

### Application

Press a cotton wool pad soaked in *Nail Enamel Remover* onto the enamelled nail for a few seconds so that the liquid spreads and the enamel is softened. Then remove quickly.

*Tip:* Always clean the nail from the cuticle in the direction of the tip for precise removal of nail enamel so that nothing seeps out into the nail bed.

PRODUCT TYPE  
Nail enamel remover

RETAIL PRODUCT  
Bottle, 100 ml

TESTER  
Bottle, 100 ml

### Consultation

- *Cleans nails gently and thoroughly.*
- *Acetone-free so it does not irritate the cuticle.*
- *Conditions nails and provides cuticles with long-lasting moisture.*
- *Pleasant flowery fragrance.*
- *In a practical plastic bottle — also ideal for travelling.*

Cleans and  
conditions the nails.
